## Participation in Exams via Artemis

FPV instructors

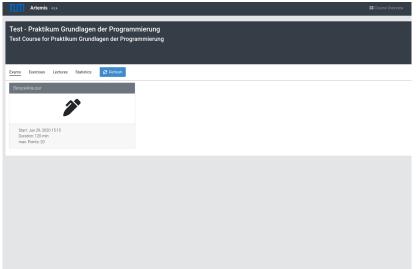

1. August 2022

Log into Artemis and select the course being examined in "Course Overview".

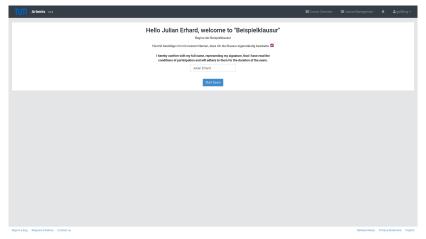

Select "Exams" to view the exam for the course. The exam will be visible circa five minutes before the start of the exam.

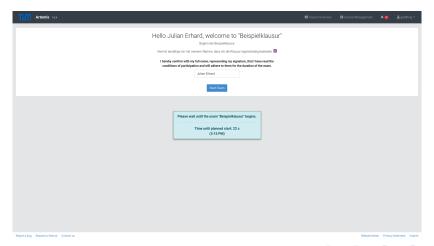

By clicking on the exam, you'll be transferred to the starting screen.

Confirm the text shown by checking the checkbox and enter your name as a substitution for your signature. The name must match the one shown. After that click on "Start Exam".

If the working time for the exam has not yet started, you will see a countdown until the exam can be worked on. As soon as the working time begins, the exam will be unlocked.

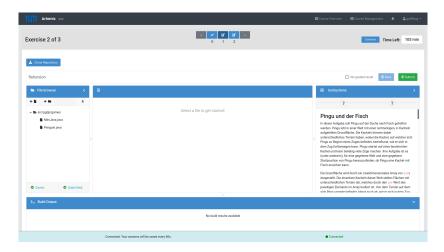

Here you can see the interface for multiple-choice exercises. The yellow circles on the left represent multiple choice questions which have not yet been answered.

Artemis 426					
Exercise 1 of 3	· • • • • • • • • • • • • • • • • • • •		Submit & continue	Time Left:	109 min

## Programming tasks look like this.

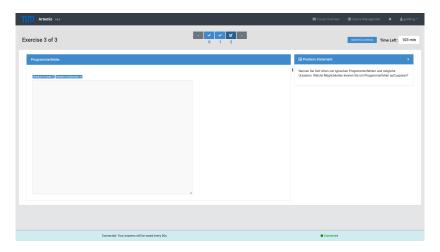

You can clone the template locally and work on in via your IDE. Click the "Clone Repository" button to get the URL for cloning. Don't forget to **push your submission!** 

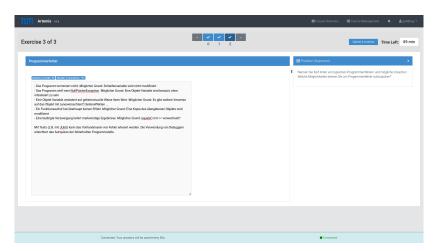

You can use the navigation bar again to proceed to the next exercise.

This is how a question with text input looks.

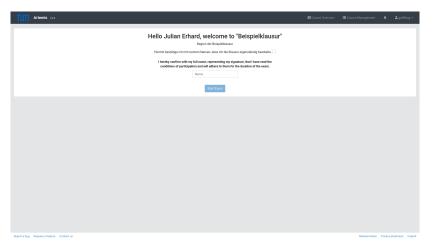

Click on "Submit & Continue" to submit your current work. You can still use the navigation bar to change between exercises.

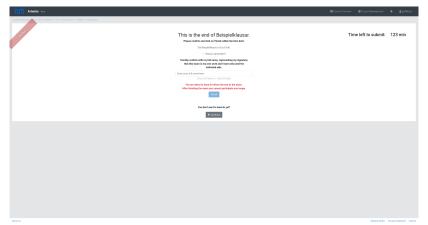

Exercises marked yellow contain work that has not yet been submitted.

Important: If you reload the page during the exam (e.g. via F5 you will be redirected to the starting screen. Work that has not been submitted will be lost!

At the end of the working time you will have three minutes to submit the exam by entering your name and selecting the checkbox. After that, click on "Finish". The screen you see when submitting early will look similar to the one below.

After submitting your exam, you can view it on the end-screen and download your mission as a PDF.
